

Task 7.3 Create Trip Attraction Analysis Files

Inputs

Household survey

External survey (road)

PT surveys

School survey

Land use data for 2001

Processing

Specify required file contents for trip attraction analyses.

Create a flat file, 1 record per zone including:

- residents internal all-mode trips attractions by purpose from the household survey by purpose;
- non-residents internal attractions by purpose from the external road survey and public transport survey;
- zonal characteristics from the land use data;
- add any other zonal information of interest (zone types, type of retail destination, presence of major recreational attractors, urban/rural etc).

Outputs

Documented flat file.
